

WEB COOKIES POLICY

OPDE Group (hereinafter Opdenenergy), formed by its parent company Opdenenergy Holding, S.A and its subsidiaries, inform the users of its website on the use of their own and third-party cookies to improve their services.

What is a 'Cookie'?

A cookie is a file that is downloaded by the user's computer when accessing certain web pages to store and retrieve information about the browsing that is carried out from that computer. They have a double function, the control and recognition of users, and obtain information about the user's browsing habits.

In general, cookies can be classified in accordance with:

- **The entity that manages them:**
 - **Own cookies:** These are those that are sent to the user's terminal equipment from a computer or domain managed by the publisher itself and from which the service requested by the user is provided.
 - **Third-party cookies:** These are those that are sent to the user's terminal equipment from a computer or domain that is not managed by the publisher, but by another entity that processes the data obtained through cookies.

- **The purpose:**
 - **Technical cookies:** These are those created and managed only by Opdenenergy and that allow navigation through this website, as well as the use of its different options and services.
 - **Preference or personalization cookies:** these are those that allow to remember information for the user to access the service with certain characteristics that may differentiate their experience from that of other users.
 - **Analysis cookies:** These are those that, treated by Opdenenergy or by third parties, allow to quantify the number of users and perform the measurement and statistical analysis of the use of this website.
 - **Marketing cookies:** These are those that store information about user behavior obtained through the continuous observation of their browsing habits, which allows to develop a specific profile to show advertising based on it.

- **The period they remain activated:**
 - **Session cookies:** these are those designed to collect and store data while the user accesses a website.
 - **Persistent cookies:** these are those in which the data are still stored in the terminal and can be accessed and processed for a period defined by the person responsible for the cookie, and that can range from a few minutes to several years.
